

**“What I love about being a military child.”
By: Jillian Sanchez**

I serve the ones who serve this country

**Every day they give everything they have
Which teaches us to give back**

**In any way shape or form
One little act can transform**

**The worst days into fun
For others soon to come**

**I learn this lesson every day
From the one who shapes my life in every way**

**The one to hold me in the air
The one that’s always there**

**He puts my hand on my heart and the flag on my chest
When he leaves to go to the West**

**He says “ill be back,” I say “ill be here”
When I think about him gone for a year**

**These reassuring lines that break my heart
Will never bring us further apart**

**For days I miss him so dearly
But I can still see him clearly**

**When he comes back I feel closer than before
He left, to go to war**

**Being the child underneath his wings
Brings me lessons, and things**

**Things you don’t think about until you see
All the people including him and you that are free**

**Free because they fought and died
All I have left to say is Semper Fi**
