

"Home isn't a place"

I was born near the mountains
Of New Mexico
And grew up near the beaches
Of San Pedro
Now I live near
Our nation's capital
After a year in Ohio
And another in Prattville

This military life is
all I've ever known
I've made many new friends
But kept the old
It's never good bye
Just see you later
Before we are off
On our next adventure

We military kids
are resilient and strong
We bloom where we're planted
We know all along
That home isn't a place
It's all the memories
Of everywhere we've been
While serving our great country
