

## What It Means To Be Free

The idea of freedom comes at a loss,  
to some people anyway  
Just like the man on that cross  
that took our sins away

Waking up, and,  
taking in a deep breath  
Because of the loving hand,  
we are free from our untimely death

Being free is something  
that lots of us take for granted  
Here, imprisonment is jumping  
Waiting to take us, from where we were planted

Freedom is an objective  
A mere figment of our imagination  
Comfort zones are only protective  
until you encounter a new situation

To be free  
One must fight the battles  
Whether one, or two, or three  
Until they get to what matters

Being free is in your mindset  
But you have to look, in order to find it.
